

## 1-32 splitter box type

This PLC Splitter is a 1x32, with 1 input and 32 output fibers with an even split ...

PLC Splitter Modules are available in the form of either plastic module cassette (an ABS box) with ruggedized fiber jackets of 2mm and up to 3mm, or LGX metal box for plug and play splitter ...

1x32 PLC Fiber Splitters are Single-mode splitters with an even split ratio from one input fiber to 32 output fibers. 1x32 PLC Fiber Splitter includes different sealing types, such as blockless, ABS box, ...

This PLC Splitter is a 1x32, with 1 input and 32 output fibers with an even split ratio across all fibers regardless of input wavelength. PLC Splitters are available with 900µm loose tube singlemode fiber ...

The 1x32 LGX PLC splitter is usually installed in the wall mount FTTH box for fiber optical signal distribution. Fiber optic splitter is one of the most important passive devices in the optical fiber link.

High-performance 1x32 PLC Splitter with low insertion loss, SC/APC connectors, and blockless steel tube design. Ideal for FTTH, GPON, CATV, and PON networks.

Digisol box type splitters provide excellent optical performance & reliability. This fiber box type SM, SC PC Type 1X32 splitter also available in the form of a plastic module cassette.

Pigtailed ABS splitters are most commonly used in the PON networks. They provide complete protection for inner optical components and cable, and are designed for convenient and reliable installations.

The 1x32 SC/APC optical splitter box divides single fiber signals into 32 equal outputs for PON networks.

The 1x32 ABS box module type PLC Splitters have high performance in terms of low insertion loss, low PDL, high return loss, and excellent uniformity over a wide wavelength range from 1260nm to ...
