

# 12-core fiber optic splice box for field operations in the Gulf region

Explore reliable optical fiber splice closures for network deployment. Our closures prioritize reliability, installability, and flexibility.

The 12 Port Fiber Distribution Box can connect up to 2 optical cables, providing space for distributors and 12 fuses. It is equipped with 12 SC adapters and can work in outdoor environments.

Description: In-line Fiber Optic Splice Closure can be used in aerial, duct and direct buried application ber splice closures are made of the high quality material and with the mechanical ...

Good performance: This fiber optic divider box can splice up to 12 cores and is equipped with a large inner fusion splicing box, which is more convenient for fiber winding and fusion splicing.

Premium Quality : Featuring our 12-core FTTH Fiber Optic Distribution Enclosure, this Fiber Optic Terminal Box is made from PC+ABS material that ensures its durability and long-lasting life.

It features 2 input cable glands for cables up to 12 mm and 12 output ports for drop cables up to 3 mm, with a splice capacity of 12 fibers. The box supports both 1x4 and 1x8 PLC splitters for flexible signal ...

Our fiber optic splice boxes provide reliable enclosures for fusion splicing in FTTH/FTTB and campus networks. Designed for wall- or pole-mount deployment, each box houses splice trays, protects fiber ...

Used in the integration of the incoming cable and the drop cable, the optical fiber splicing, winding, storage, and distribution. Cables, pigtails, and patch cords pass through their own paths without ...

With a maximum capacity of 12 cores and the ability to accommodate 3 pieces of 8-13mm cables, it provides ample space for your connectivity needs. What sets it apart is the innovative design that ...

This product is a multifunctional box body that can meet various customer needs through different internal components. The product uses high-quality PC+ABS products with reliable strength, and the ...
