

# 144-core cap-type optical cable junction box

With good sealing performance, the simple installation and wide application range are the best choice for optical fiber connection.

The 144 cores dome type fiber optic splice closure come with 2 inlets and 4 outlets, which is including 6 splice trays, each accommodating 24 fibers. The fiber optic joint box body is crafted from reinforced ...

Durable PC fiber splice box with 144-core capacity, IP68 waterproof rating & 6 in-out ports. Ideal for CATV, telecom & outdoor installations.

The enclosure includes multiple cable entry ports for easy access and secure splicing, with a ribbed exterior for enhanced grip and stability during setup. Ideal for FTTH, telecom, and broadband ...

It is widely used for for aerial, duct, pole-mounted, and underground fiber cable installations. This 144 core dome fiber splice closure integrates distribution, splicing, jointing, and storage into a single, ...

Discover 144 core fiber optic joint enclosures with IP68 waterproof rating, mechanical sealing, and optical fiber connector compatibility. Ideal for FTTX, telecom networks.

- The box body and base are sealed with hoops and rubber. - The splice closure casing is made of quality engineering plastics, and of good performance of anti-erosion against acid and alkali salt, anti ...

Encompass everything from distribution terminals to drop cables, meticulously crafted for effortless installation and dependable performance. Providing cutting-edge solutions that facilitate high-speed, ...

Stacked structure splice tray and independent insulation grounding device make it flexible, convenient and safe for the optical fiber core configuration, expansion and the cable grounding;

Dome-type closure with up to 144 fiber capacity. Multiple cable ports for high flexibility. Durable PC/PP housing for harsh environments. Heat shrink sealing for secure cable entry. UV and ...
