Corning has a wide variety of hardware solutions to choose from to fit your cabling needs. Choose from racks, panels, modules, splice trays, ethernet fiber switches and other structured cabling components.

The trays are engineered to use with both loose tube and tight-buffered optical cables. Their generous size and craft-friendly design help prevent induced attenuation due to fiber bending.

Enhance your fiber optic network with our durable ABS Fiber Optic Splice Tray, designed for SC/UPC connectors and ideal for FTTH applications with a compact size of 300x180x25mm.

Each 12 Core Fiber Optic Tray provides space for mounting fiber splice protectors and excess fiber. 12 Core Fiber Optic Tray's divided into common splice tray, module integration and splitter tray.

This splice tray neatly arranges and safeguards fiber optic splices, enabling seamless signal transmission. With its 12 - core design, it can manage multiple fiber connections.

Discover CommScope fiber splice trays, fiber optic splice trays, and a convenient fiber splice organizer. Organize fiber connections with ease.

Our fiber optic splice enclosure provides secure connections and saves space in data centers. Its compact wall-mounted design and included accessories streamline cable management.

The 12 core fiber optic splice trays are white colors and black colors optional, with same size and high quality. We have stock of this fiber tray for fast delivery.

Our Fiber Cable Tray System designed to route and protect fiber optic and high-performance copper cabling to or from network cabinets, distribution frames or other devices.
