

## 4-port DIN fiber optic splice box

This compact enclosure makes it possible to direct terminations or fusion splices in much smaller protected areas.

This 4 strand optical fiber distribution box is used for the fusion splicing, splitting, wiring transmission and other functions of the optical transmission terminal. It can effectively terminate, protect and manage ...

The FOTB-X04 termination box is a compact solution for small-scale fiber distribution, featuring 1 input port for cables up to 8 mm and 4 output ports for drop cables up to 3 mm in diameter. With a splice ...

The FOO is simple in design yet offers sufficient work space and fiber management - the box is engineered with all fiber routing supporting the minimum bend radius philosophy to ensure signal ...

It's light and suitable to use on 1,2,4 fiber box, mountable on DIN rail in electric, communication cabinets and other environments. It is suitable for connecting SC/APC simplex adapters.

It offers mechanical protection for fiber and pigtail management, ...

It offers mechanical protection for fiber and pigtail management, integrates splice and termination in a compact form, and features user-friendly operation with high reliability. The internal ...

The 4 port fiber termination box is designed to joint optical fiber cable and pigtail or splitter, and realize cable direct connection and branch connection. The plastic box offers the functions of fiber ...

The 4 port fiber termination box is designed to joint optical fiber cable and pigtail ...

Supporting 4 fiber cores, this terminal ensures secure and efficient fiber splicing and distribution. Its DIN rail mount design allows for easy installation in various environments, making it ideal for commercial ...

Future-proof high-speed data transmission: Splice boxes from Phoenix Contact ensure continuously reliable real-time data transmission. With their compact and uniform design, the splice boxes provide ...

This DIN-Rail fiber termination box provides a structured and organized way to terminate and manage fiber optic cables, ensuring reduced cable clutter and easier troubleshooting in industrial applications.
