

## 515nm 30mw laser diode module

This red diode laser modules can work as laser level, alignment for wood cutting, stone cutting, sawmill workshops, tyre workshops, fabric cutting etc. We can also make customization of laser modules ...

515nm 10mW 30mW Laser Diode Module Dot/Line/Crosshair Focus Adjustable Laser. Constant current intelligent feedback control circuit. Efficient high-transmittance optical system. Low power ...

The Lasermate LD515A30C16 515nm 30mW Laser Diode in a 5.6mm TO-18 package delivers precise green laser performance at high temperatures, ideal for AV, telecom, and measurement devices.

Supporting special brackets, with good thermal conductivity and flexibility, so that the laser sniffer can be installed in any vertical or horizontal plane, and make it adjustable 360 degrees in any angle of three ...

These laser modules feature a direct green diode which gives a brighter green colour and better beam shape. 12V TTL modulated driver box.

Purchased IR and green visible laser diode modules. Both arrived carefully packaged and worked flawlessly when hooked up to 3v. Both were in great condition. Shipping was fine, only ...

Osram 515nm 30MW Diode Green Laser Diode PL 515, Find Details and Price about Laser Diode 515nm Laser Diode from Osram 515nm 30MW Diode Green Laser Diode PL 515 - Lanji ...

The Lasermate Group, Inc. PLA515 series laser diode module is a precision laser module with typical 515nm wavelength designed for OEM applications by which the output laser beam is pre-aligned to ...

The GPD module can deliver from 1mW to 50mW of output power with a wavelength of 405nm to 520nm. Additional design features include great wavelength stability, excellent optical power stability, ...

This family of green laser diodes, from OSRAM Opto Semiconductors, are in TO-38 Icut packages. These single mode lasers have a Wavelength of 520nm. Suitable applications for the TO-38 green ...
