

## 72-core cable and optical fiber

Providing up to 216 fibers in a compact design, the enhanced coupling features ensure the ribbon stack and cable act as one unit, providing long-term reliability in aerial, duct and direct-buried applications.

72 Core GYTY53 fiber optic cable is used for direct buried underground, it suit for long distance and LAN fiber communications, we supply both the single mode GYTY53 cable and multimode GYTY53 cables.

GYTA53 fiber cable consists of 250um fibers held in gel-filled PBT loose tubes, and wrapped around a phosphatized steel wire central strength member. A waterproof compound fills the loose tube, and ...

Spring Optical provides various types of fiber optic patch cables including single-mode, multimode, multi-core, armored patch cables, as well as fiber optic pigtails and other special patch cables.

Outdoor dry core optical fiber Multi Loose Tube cable with aramid yarns as strength member and polyethylene outer jacket. Existing out of 6 tubes with a diameter of 1.9mm with 72 fibers (6t x 12f) ...

OptoSpan's 72 Fiber MTP Cables feature a Dual Jacket design complete with an additional layer of protective yarn resulting in a 4.5mm thick shell that increases resistance to damage and protects ...

This fiber optic cable features the good mechanical and temperature performance. 72 Cores GYTA Fiber Optic Cable is with high strength loose tube that is hydrolysis resistant and the optical cable filling ...

72-core GYFTS53 double-armoured fiber optic cable for underground use. Moisture-resistant, -40°C to 90°C rating, PE jacket, crush-resistant design.

Providing up to 216 fibers in a compact design, the enhanced coupling features ...

SABA 72 cores distribution fiber optic cable is constructed with loose tube fibers, aramid yarn strength member, LSZH is metal free outdoor cable . Quality of the product is tested according to IEC Standards.
