

# Andorra High-Speed Connector QSFP28

Optical

Amphenol's 100G QSFP28 to QSFP28 Active Optical Cable assemblies are a reliable, cost and power efficient, integrated solution which is ideal for high density signal transmission ...

Amphenol's 100G QSFP28 optical modules include SR4, AOC, AOC break out, CWDM4, LR4, ER4 Lite, ER4 and ZR4 series, which adopt LC or MPO optical ports

Discover the QSFP28 (SFF-8665) standard -- the foundation of 100G Ethernet networks. Learn its technical design, interoperability, and LINK-PP's fully compliant transceiver solutions for ...

The QSFP28 LR4 module provides 100GBase-LR4 throughput up to 10km over a standard pair of single mode fiber (SMF) with duplex LC connectors. This transceiver is compliant ...

These high performance and low power consumption AOCs are Ethernet, InfiniBand and MSA compliant with a robust construction, including a high-strength pull tab latching system which reduces plug loss ...

The QSFP28 series offers up to 100Gbps transmission speeds and includes 1-by and 2-by cages & connectors. QSFP28 interconnects are designed for high-density applications supporting 25 Gbps or ...

Supports 100Gbps transmission speeds in an industry-standard, pluggable QSFP28 form factor. Enables reaches from 160km point-to-point up to 500km DWDM links 1, and expands IP over DWDM ...

The 100GBASE-LR Single Lambda QSFP28 Optical Transceiver Module is designed for use in 100GBASE Ethernet throughput upto 10km over single mode fiber (SMF) using a wavelength of ...

By providing four lanes of 25G, QSFP28 enables a streamlined upgrade path from lower-speed networks, making it a popular choice for scaling data center interconnect (DCI) and service provider ...

Offer low insertion loss and cross talk plus excellent electromagnetic interference (EMI) containment.
