

Bangladesh Warranty OSFP Optical Module 200G

200G QSFP56 transceivers with PAM4 modulation for high-speed data center connectivity. SR4 and FR4 options supporting 100m to 2km reach. MSA compliant.

A: No, due to mechanical and electrical differences, OSFP modules are not compatible with OSFP-XD ports, and vice-versa. Mechanical keying features on the modules prevents insertion into the wrong ...

SFP modules are a small and efficient transceiver module used in various types of network devices. It is capable of transferring data over fiber optic and copper cables and is available in various speeds, ...

200Gb/s QSFP56 SR4 Transceiver QSFP56-200G-SR4 Features Compliant with 200G-SR4 optical specifications 4x53.125Gb/s electrical interface (200GAUI-4) Reach up to 70m on MMF(OM3)

The sample orders are compliance with our warranty policy stated on our product Support-Warranty page. The test period is 30 days from the receipt of goods. After 30 days, you can decide to pay for ...

TE's OSFP connectors and cable assemblies address next-generation data center needs by supporting aggregate data rates of 200G and up to 400 Gbps.

Buy Ficer 200G QSFP56-SR4 850 nm Optical Transceiver Module for short-reach 200G multimode fibre links in Bangladesh data centres.

The original customer purchasing the 10GtekStore Product is covered under the Warranty Policy for the defined warranty period, starting from the date of original purchase.

200G/400G/800G optical module features up to 40km transmission distances using QSFP56/QSFP-DD footprints for data center interconnect applications - FiberMall
