

Belarusian fiber optic splitter low noise direct from manufacturer

Identify and compare relevant B2B manufacturers, suppliers and retailers. Max. T& S Communications specializes in manufacturing high-quality fiber optic splitters, including PLC splitters and FBT ...

OJSC Plant Optic is the largest optical company situated in West of Republic Belarus. Founded 1970 plant has established a reputation as reliable manufacturer and supplier high quality details.

Fiber optic splitters include PLC type fiber optic splitters and FBT type fiber optic splitters. Available in single mode and multimode with 900µm loose tube fiber or 250µm bare fiber connectorless or any ...

Planar lightwave circuit (PLC) splitter is a type of optical power management device that is fabricated using silica optical waveguide technology to distribute optical signals from Central Office (CO) to ...

The function of the product is in the optical transmission link, to provide various types of fiber optic cable through, branching, and related connecting protection, IP safety rate is IP68.

Our SM and double-clad fiber coupler offerings also include a selection of components ideal for OCT applications.

We offer a comprehensive range of polarization-maintaining (PM) fiber optic couplers and splitters, designed using three fabrication methods: fusion, micro-optics, and waveguide (PLC).

Fiberlab is a high quality fiber optic passive components manufacturer and authorized supplier of equipment used in fiber optic cable assembly's production and testing.

Our small footprint couplers, splitter/combiners and other components can be configured as NxM port, splice free coupler arrays and as custom assemblies fabricated for high ER and low loss.

Fiber Optic Splitters Clearfield leads the way with optical component technologies for PON splitting, C/W division multiplexing and optical circulators. These products are custom built to your unique split ...
