

Cablofil is the global gold standard for total cable management. Explore the one-stop shop for innovative, fast, and dependable cable management systems including wire mesh tray, ladder cable ...

Jinggong is a trusted cable tray machine manufacturer based in China, offering customized solutions for steel structure and cold forming industries. Feel free to contact us if you are interested in the cable ...

These versatile CNC operated machines produce all types of cable trays like ladder type, solid/ventilated channel types, center spine designs etc. in one production line.

Our advanced cable tray production line is engineered to provide automated forming, punching, and cutting processes for various types of cable trays, including perforated, ladder, and solid-bottom trays.

Our equipment is mainly of medium and high configuration, such as famous brand PLC and Motor, Frequency converter, Long Service Life, Remote Control, Multifunctional, Energy saving.

Explore the ultimate guide to cable tray production equipment. Learn about types, features, and trends to improve efficiency, precision, and sustainability in manufacturing.

Learn which machines make cable trays -- roll forming, press brake, punch press, and shearing line. Step-by-step process guide, specifications, and machine selection tips for 2026.

We customize according to customer requirements and meet your semi-automatic or fully automated processing requirements. Please follow us to learn about the structural composition and ...

Features 1. Adjustable roll forming, one line meets all your needs for cable tray production. 2. High Efficiency: Punch Press holes punching, high speed production. 3. High Precision: The production ...

The high-speed automatic cable tray production line is composed of an uncoiler, a leveling machine, a rotating laser cutting machine, a press brake rolling push feeding mechanism, a fully ...
