

Cable tray seismic support distributor

We offer a pre-engineered, time-saving solution which braces and secures non-structural equipment within a building to minimize damage from earthquakes or seismic events.

Start designing with cable trays by Chalfant Manufacturing today! Find out more about our products and systems for a wide range of applications.

The assembly connects the structure such as a beam or ceiling, to a brace member which could be cable, channel, or pipe to a non-structural support, such as pipe, trapeze, cable tray, duct, and more.

Connect cables directly to 3/8" threaded rod in trapeze installations for seismic bracing. Use 2 EZ BN 3/8 to attach cables to FAS PCH for sway bracing. Predrilled tabs allow attachment directly to concrete ...

UNISTRUT Seismic Bracing Solutions contractors, Specifiers, and others. We have decades of experience with real-world applications in severe seismic zones, supplying world-class products and solutions. ...

Our Seismic Bracing Cable can be purchased in bulk, on 250 ft. Spools, with load ratings from 600 pounds all the way up to 4600 pounds. Lengths of this bulk cable are easily cut to make Cable ...

Seismic Cable Bracing Systems for Lighting or HVAC designed & engineered to limit sway during a seismic event. Strong, easy to install, and cost-effective.

Cable trays are systems used for the safe transportation and protection of electrical cables, designed to fit the pathways within buildings and structural installations.

Shop Earthquake Bracing at Launch 3 Telecom, seismic support solutions designed to secure cable trays, conduit, and equipment during seismic events.

The innovative line of nVent CADDY Bracing Systems was developed to help keep fire sprinkler systems intact after a seismic event and minimize water damage.
