server and other equipment together. Generally, 4U to 42U size server rack is available in Bangladesh. Server rack should be selected based on how much heat the server generates and whether adequate ventilation is included. In particular, consider how many cooling fans are included in the server rack. For the security of the server, the server rack should be selected considering whether the server rack has a reliable lock system. Most server racks include a manual cabinet lock system. A server rack should be purchased depending on the material it is made of. However, most of the server rack available in Bangladesh today is made of steel or aluminum material. See more
