

Ceramic ferrule without chamfering

Ceramic Ferrule Application: High performance fiber optic connectors used in environments requiring durability after repeated mating, Low insertion loss and low back reflection.

Designed for use in a variety of chemical and industrial applications where it is necessary to protect tube sheets, welds, and vulnerable boiler tubes, Blasch ferrules come fully wrapped with thermal paper ...

Our ceramic ferrules can go from ambient temperature to weld temperature in a split second and resist cracking or exploding. The use of a ferrule is required for stud welding in order to concentrate the ...

FiberSource's state of the art ferrules are manufactured using sophisticated clean room manufacturing and testing environments. It's our assurance our ferrules meet the industry's highest standards for ...

We provide high precision custom and special size zirconia ferrules, with OD sizes ranging from .60mm to 3.17mm. The ID sizes range from 80 microns to 1500 microns, in any length from 2.5mm to 22.4mm.

Blasch ceramic ferrules for boilers are engineered to come to closure at operating temperature without the need for this secondary protective barrier.

Kyocera's extrusion molding process creates ferrules with excellent coaxiality, and our precision machining ensures excellent concentricity with precise inner and outer diameters. Our ferrules and ...

We provide stud welders and manufacturers with custom ceramic ferrules that can be used to protect weld studs from weathering and contamination.

Precision Fiber Products manufactures SC type 2.5mm OD ceramic ferrule sticks. They come in a variety of ID bore sizes and performance types. 100% tested for concentricity and bore size. Custom ...

Kyocera's extrusion molding process creates ferrules with excellent coaxiality, and our precision machining ensures excellent concentricity with precise inner and ...

Reduced pressure drop - MECS®; HexPro™ Ferrules are available with a wide range of tapered inlet and outlet profiles and, in addition to reducing the refractory mass in the furnace, has been shown to ...
