

# Columbia Sheathed Cable Tray

MP Husky's cable tray selector for choosing the correct tray type (ladder, solid bottom, perforated, wire mesh) and size based on load, cable type and installation requirements.

Choosing the right cable tray type is essential and is usually specified by an engineer or project designer. The selection depends on several factors such as the number of cables, cable weight, ...

Choose from our selection of cable sheathing, including expandable sleeving, tube sleeving, and more. Same and Next Day Delivery.

For ease of installation and accessibility, lay cable and hose in trays instead of pulling it through conduit or raceway. These tray systems allow excellent ventilation and prevent sagging while routing.

A cable tray system consists of metal or plastic trays that are mounted on walls or suspended from the ceiling. The trays are designed to hold cables securely, protecting them from damage and reducing ...

Choose from our selection of wire cable trays, including over 850 products in a wide range of styles and sizes. Same and Next Day Delivery.

Over the past 55+ years, MP Husky US Cable Tray has engineered and manufactured the most reliable, highest quality, cost effective and innovative cable trays systems available.

Explore all types of cable trays--ladder, perforated, basket, solid, and channel. Learn their uses, materials, pros, cons, and key differences.

Our cable tray systems securely hold and protect cables and come in many models and sizes, solid bottom and ventilated.
