Our Optical Transceivers & Modules category includes a comprehensive range of hot-swappable, high-performance modules for fiber optic communication. From SFP/SFP+, QSFP+/QSFP28, to custom ...

Optical Transceiver Modules/SFP, also called fiber optic transceiver or optical transceiver, is a typically hot-pluggable device used in high-bandwidth data communications applications.

Optical modules are the small interfaces that connect the fiber to the traditional copper network, data center, repeater module and most of the end points in optical networks.

Customized Modules Fully customized products leveraging optical, mechanical, electrical and software integration capabilities and in-house components.

Shop high-speed optical transceivers from Unitekfiber. We offer 100% compatible 40G, 100G, and 400G QSFP-DD modules for data centers. Expert technical ...

200G/400G/800G optical module features up to 40km transmission distances using QSFP56/QSFP-DD footprints for data center interconnect applications - FiberMall

The fiber optic transceiver modules can work in any network architecture through professional capabilities and in-house lab test. Click to get your transceiver modules from nearby warehouses. 30 ...

Shop high-speed optical transceivers from Unitekfiber. We offer 100% compatible 40G, 100G, and 400G QSFP-DD modules for data centers. Expert technical support & wholesale pricing.

Communications Components best in class in each of their individual categories. Our photonic components enable leading-edge performance from 100 Gbps to beyond 1 Tbps, and are well-sui

We're well-known as one of the leading optical modules manufacturers and suppliers in China. If you're going to wholesale bulk high quality optical modules with competitive price, welcome to get pricelist ...

Engineered to meet IEEE 802.3 and MSA standards, our module provide excellent signal integrity, low power consumption, and advanced digital diagnostic monitoring (DDM/DOM). LINK-PP SFP module ...
