

nVent SCHROFF's products are based on globally standardized product platforms that support rapid, futureproof, and cost-effective development. We can offer the following services all under one roof:

Explore the FS N8510-24CD8D, a future-ready 200G data center switch built for high-density, scalable, and lossless networking. This guide covers specifications, module and cable compatibility, ...

NADDOD 200G QSFP56 SR4 transceiver modules are high performance modules that support liquid/immersion cooling for short-range data communication and ...

NADDOD 200G QSFP56 SR4 transceiver modules are high performance modules that support liquid/immersion cooling for short-range data communication and interconnect application.

At the 2022 OFC, Ruijie unveiled a 51.2T NPO cold plate-cooled switch, upgrading NPO modules from 1.6T to 3.2T in a 1RU form factor. This design significantly cuts power consumption ...

As a result, data center operators are investigating their liquid cooling options. Liquid cooling leverages the higher thermal transfer properties of water or other fluids to support efficient and cost-effective ...

The HPE Slingshot switch is offered as a direct liquid-cooled blade in the HPE Cray EX supercomputer, and a 1U top-of-rack form factor for HPE Apollo and ProLiant clusters, across a wide range of ...

This article delves into the design difficulties and solutions for liquid-cooled switches, while also exploring the potential of liquid cooling technology in promoting innovation of network devices.

Take steps now to modernize your facility and thermal management strategies for tomorrow's liquid-cooled switches. Meet with your Cisco team or partner to discuss how to design, ...

Explore the FS N8510-24CD8D, a future-ready 200G data center switch built for high-density, scalable, and lossless networking. This guide covers specifications, ...

This highly efficient, easily scalable, single-source solution eliminates data center hotspots, meets demanding cooling requirements (from edge, hyperscale, and colocation to HPC), and minimizes the ...

FS introduces the N8550-24CD8D, a high-performance 200G switch enabling AI storage access and smooth 100/200G to 400G data center network upgrades.

# Cost-effective liquid-cooled switch 200G
