

Custom-made low-voltage busbar trunking

Sichuan Sotoon Busbar Trunking Systems Co., Ltd., headquartered in the renowned tourist city of Dujiangyan, Sichuan Province, is a leading high-tech enterprise specializing in the design, R& D, ...

Busbar trunking systems, also known as busways, are modern electrical distribution solutions that use enclosed copper or aluminum conductors to efficiently transmit power from source ...

GRL's busbar trunking uses aluminum and reinforced polymers to support 400-4500 A at voltages up to 1000 VAC or 1500 VDC. Trunking is common in factories, data centers, malls, and ...

With SIVACON 8PS busbar trunking systems, you can easily plan and quickly assemble the power distribution within building complexes and in outdoor areas. Modifications and expansions are ...

Our team of electrical engineers is ready to design, build, and deliver your custom panel solution -- fully compliant with international standards. Improve power distribution with IEC 61439-6 Busbar Trunking ...

stretch in all directions. Busbar is offered as a standard with its two-letter stay and receiving current from 10 points. When the busbar IP covers are open or when the covers are open in the exit off position ...

TM Electro designs and manufactures non-segregated, medium and low voltage busbar trunking for primary and secondary distribution

Need a custom Busbar Trunking System (BTS)? Our engineering team at Patrion can design and build this panel assembly to your exact specifications.

Penn Panel specializes in prototype to low volume production of custom fabricated busbars. Using high conductivity copper, we fabricate bus bar assemblies that can handle amperages up to 6000A. We ...
