

Customized Optical Transceiver Module

Reliable optical transceiver supplier offering SFP, SFP+, QSFP+, AOC, DAC and custom modules with fast delivery, full compatibility, and OEM support.

The Custom 200GBASE-ER4 CFP2 module fulfills this necessity. Unlike compact data center form factors, this transceiver utilizes its substantial physical footprint to aggressively dissipate the heat ...

Supports QSFP-DD, OSFP, CFP8 ports across top-tier switches and routers. Tailored laser wavelengths, connector types, digital diagnostics, and firmware options. Compliant with IEEE ...

Explore custom 1G, 2.5G and 4G fiber optic transceiver modules designed for flexible performance, scalable networks and reliable connectivity in enterprise and access systems.

Customize your 10/25/40/100G transceiver from data rate, connector type, compatibility to form factor. With well-equipped lab, all FS custom optical transceivers are produced with high-quality ...

Build and order your own custom 10G SFP+ LR transceiver compatibility online. With our easy-to-use online compatibility configurator, you can create a customized compatible replacement 10G SFP+ LR ...

FS Transceivers specializes in custom optical transceiver solutions for unique network requirements. We can manufacture fiber optic modules with specific wavelengths (CWDM, DWDM), extended ...

HiFiber's Customized Compatible 10GBASE-LR SMF Single-Mode 1310nm 10km transceiver is small form factor pluggable module for serial optical data communications such as IEEE 802.3ae ...

Get the highest quality, performance-leading optical transceivers for any network architecture. Find the transceiver model to fit your network.

Engaging with manufacturers that offer tailored optical communication components enables businesses to optimize performance according to specific operational needs.
