

Customized Passive Optical Devices

SENKO offers an extensive range of product lines, including Fused Coupler, Filter-based WDM, Outside Plant use WDM, Polarization Maintaining Components, Switching and Routing, and other customized ...

Contact Optosun to find out more about how we can help you with our customized passive optical products, modules and devices:

DWDM Optical Add/Drop multiplexer (OADM) is a passive optical device used in WDM networks to add/drop one or multiple 100 GHz DWDM channels in the C-band into one or two fibers, while ...

For global buyers looking for innovative and tailored optical networking solutions, investing in custom PON systems can yield significant benefits, including cost reduction and improved performance.

For assemblies with more than two fibers, 3V-TECH offers both V-Groove and MPO, different cores available according customer requirement.

FS DWDM OADM are modular, scalable and are perfectly suited to 10/1G Ethernet, 16/8/4/2/1G FC, SDH/SONET, Video, CATV, FTTx applications. Note: The custom lead time for MUX with FC and ST ...

For newly added Opticonx products, click [here](#) or navigate to the products tab and scroll down. **LOOKING FOR SOMETHING SPECIFIC?** Contact us to speak with one of our expert engineers. " * " ...

With these services, you can ensure that the components you purchase from us align perfectly with your brand consistency needs. Whether you need specialized PM components, high-power devices, or ...

Bright Fiber designs and delivers fully customized, preconnectorized, and ready-to-deploy PON fiber optics solutions. Working with our trusted distributors and OEMs, we are ready to fulfill your ...
