

Delivery time for low-power optical modules 25G

The LR SFP28 module provides a 25 Gb optical Ethernet connection using LC duplex optical connectors over SMF (single-mode fiber). One data lane operates in each direction, at 25.78 Gbps using single ...

The ABPTEL SFP-25G-ZR 25GBASE-ZR SFP28 optical transceiver is designed for ultra-long-reach 25 Gigabit Ethernet applications. Operating at a wavelength of 1310nm, it delivers a link distance of up ...

The Cisco 25GBASE SFP28 (Small Form-Factor Pluggable) portfolio offers customers a wide variety of high-density and low-power 25 Gigabit Ethernet connectivity options for data center ...

NS's 25 Gbps SFP28 Module family, comprising the SFP28-25G-SR, SFP28-25G-LR, and SFP28-25G-BX, delivers multi-vendor compatibility, low power ...

This module is designed to operate over singlemode fiber systems using a nominal wavelength of 1310nm. The electrical interface uses a 20 contact edge type connector. The optical interface uses ...

Designed to deliver 2.5x the bandwidth of 10G Ethernet with minimal changes to cabling and infrastructure, 25G optical modules strike the ideal balance between performance, power ...

For long-range applications, our low latency SFP28 25G LR transceiver supports up to 2km with a built-in dual CDR and bypass control, ensuring signal integrity and high performance.

The Gigalight Technologies GSS-SP0250-LRC is a single-channel, pluggable, fiber-optic SFP28 transceiver module for 25G Ethernet and InfiniBand EDR applications. It is a high performance ...

Explore our full lineup of 25G optical transceivers--including SR, LR, and extended-reach variants--and request a sample today to experience seamless integration and unwavering reliability.

This module can transmit data up to a maximum of 25 gigabits and can be easily installed even in limited installation spaces due to its compact design. By enabling bidirectional transmission over a single ...

NS's 25 Gbps SFP28 Module family, comprising the SFP28-25G-SR, SFP28-25G-LR, and SFP28-25G-BX, delivers multi-vendor compatibility, low power consumption, and digital diagnostics monitoring ...
