

Digital Fiber Optic Sensor FX-200

There is no problem with the sensor itself, but the operator may find it troubling. Given value can be corrected with the GETA function, so the apparent variation can be eliminated and the creation of ...

Write a review \$39.61 Spend \$500.00 to Free Shipping Output type: NPN Output link mode: lead out type; Type: cable type; Wire length: 2m; Output action: ON or ON switching type when entering light; ...

Looking for a Panasonic Fiber Optic Sensor? IndMALL Automation has what you need! We stock a wide selection, including the Digital Fiber Sensor models like FX-500, FX-550, FX-100, and FX-410. When ...

Trader - Wholesaler / Distributor of Fiber Optic Sensor - FD-61 Panasonic Fiber Optic Cable, FX-102P-CC2 PANASONIC Digital Fiber Sensor FX-100, FX-301-P, Panasonic Fiber Amplifier Sensor and FD ...

The fiber can detect an object less than setting range for the reflector. However, note that if there are any white or highly-reflective surfaces near the fiber head, reflected incident light may affect the fiber ...

Fiber amplifiers Sensors equipped with fiber optical cables. Small and special sensor heads, optimal for limited & difficult environments.

Digital Fiber Sensor FX-550 Three times higher emission power and 1.6 times longer sensing range than conventional models!

The FX-200 model is a new digital fiber optic sensor launched by PANASONIC, which uses a new circuit design and control algorithm, with OLED Chinese display function, users can ...

With over 200 fiber optic sensor heads to choose from, you are covered from every angle whether you need long distance, high temperature or a limited amount of space. They have multiple fiber ...

These Panasonic Digital Fiber Sensors are designed for high accuracy and durability in various industrial settings. The optic sensor range we provide is ideal for applications requiring sensitive and ...
