

Intelligent room automation devices are essential to ensure that they perform their task ideally. For fast, flexible and safe installation, we integrate the devices into the pluggable, decentralized electrical ...

Our team works directly with OEM engineers and System integrators to design custom quality panel distribution solutions that reduce installation time, simplify maintenance, and ensure long-term ...

There are 32 products.

TH35x7,5 symmetrical rail in enclosures with one row of modules and a compact frame in enclosures with two or more rows of modules. They are supplied assembled in all references.

From decentralized energy, signal and data distribution to distribution boxes for smart buildings, we offer the right solution. We mount any electronics in the manifolds! All options are open here, and the ...

Dieci uses the REDline Power Box Hybrid from Würth Elektronik ICS in different versions. Our reference project shows how we individually developed the REDline Power Box Hybrid in three different ways.

We provide an extensive range of type-tested distribution boards for low-voltage (LV) electrical systems that are suitable for residential, commercial, and industrial properties.

Our team works directly with OEM engineers and System integrators to design custom quality panel distribution solutions that reduce installation time, simplify ...

IP40 Flush-fit distribution boxes with 12, 18, 24, 36 and 54 modules of capacity. Boxes to be flush-fitted in hollow walls, and boxes to be flush-fitted in brick walls.
