

Dual-core optical fiber connection pigtail

Find high-quality fiber optic pigtails for reliable network termination. We offer a full range of single mode and multimode pigtails with SC, LC, ST, and FC connectors.

Confused about fiber optic pigtails--which connector type, which polish, fusion or mechanical splice? Our guide covers LC vs SC, APC vs UPC, splicing methods, and real-world use ...

AFL's pigtail assemblies help eliminate labor-intensive field termination, yet guarantee reliable performance. Featuring a unified construction allowing for easy fiber identification and rapid ...

OCC's fiber optic pigtail assemblies are designed for reliability and performance. All OCC pigtail assemblies may be ordered pre-terminated in any OCC rack or wall mount cabinet or custom ...

Leviton fiber optic pigtail kits are a good solution for mechanical or fusion splicing applications. Available in a range of multimode and single-mode fibers with SC, ST or LC connectors. Our premium pigtails ...

FS fiber optic pigtails offer a fast way to make fiber optic communication devices in the field by fiber splicing, fully manufactured and tested by industrial standards.

CommScope engineers and manufactures a complete line of high quality fiber pigtails

TEC Fiber has expanded Mode Field Diameter (MFD). It can reduce the coupling loss induced by optical alignment error between two different core SM fibers and between the SM fiber and the laser diode, ...

In the following article, we will discuss in detail the characteristics and applications of various types of fiber pigtails to help you choose the right pigtail for your fiber optic network.

Our fiber optic pigtail offers a flexible solution for your data centers and telecom rooms, connecting existing equipment to spliced fiber optic lines for network expansion.
