

Equipment for thermal splicing of optical fibers

AFL's Precision Strip is a fast, simple solution for stripping fiber without damage. This battery-powered, handheld stripper features an integral heating element that enables it to soften and strip optical fiber ...

Explore 19 top manufacturers and suppliers of Fiber Optic Splicing Equipment in our comprehensive photonics buyers' guide.

With preset factory settings and no adjustments required, this fiber optic stripper is designed to strip 250µm buffer coating to expose the 125µm optical fiber in fiber optic cables.

Fiber Instrument Sales has a wide variety of fiber optic splicing equipment such as fusion splicers from AFL, Sumitomo, FITELE, and FIS. FIS also splicing tools and accessories such as cleavers, thermal ...

Each system consists of a filament-based heater, a microscopic high-resolution CCD imaging system, precision stages with multi-axis control, and a desktop computer. Both filament heating systems offer ...

Fiber Optic Center has fiber optic splicing equipment, including splicers, cleavers, protection sleeves, mechanical splicing tools and more. We distribute fiber optic splicing equipment from Corning, AFL, ...

Various products include wire cutters, fiber cleavers, fiber strippers, electrician scissors and splitting tools. Basic fiberoptic cable tool kit as well as an installation tool kit also available.

Fiber Optics Cleaving and Stripping Tools available from StockAMS Technologies offers the full range of must-have tools for field or production - including processing and preparation tools for several types ...

Our selection of fusion splicing tools includes fiber arrangement and assembly tools, thermal strippers, ribbonizing tools, workstation kits and other fusion splicing accessories.

Spec Sheet The RS01, RS02, RS03 and RS03-80 Thermal Strippers provide superior stripping performance for both single and multi-fiber stripping. The fast heating time of 3 seconds speeds ...
