

Explosion-proof rating of aluminum alloy distribution box

The distribution box (explosion-proof) is an aluminum alloy housing, electrostatic spraying, in accordance with the explosion-proof provisions of GB3836.2-2000, for the distribution of electric ...

This series adopts a composite structure overall, with the main chamber employing a flanged explosion-proof design and the wiring chamber utilizing an increased safety design.

Factory price explosion-proof junction box features an IP66 protection rating and a flameproof design (Exd). Rated for 220V/380V, it ensures reliable operation in industries such as oil and gas, ...

The distribution box housing is made of aluminum alloy with an electrostatic powder coating, complies with the GB3836.2-2000 explosion-proof standard, is suitable for hazardous locations in Class I, ...

IP66 Aluminum Alloy Explosion-proof Power Distribution Box No reviews yet Yueqing Yilerck Technology Co., Ltd. 5 yrs

Our main products are explosion-proof lightings, explosion-proof distribution box, explosion-proof cable gland, explosion-proof fans, explosion-proof junction box and anti-corrosion & dustproof & waterproof ...

*Used in chemical, oil refining, oil exploitation, offshore oil platforms, oil tankers, military and other hazardous areas; Suitable for cable distribution when installing electrical appliances and lamps and ...

Copper-free aluminium enclosure, powder coated surface. Equipped with a specialized hinge structure which can prevent damage to the flameproof joints when opening and closing the box and greatly ...

Explosion - Proof Box Specification : * Material : Aluminium alloy * Explosion-proof mark : Ex eIIIC T6 Gb;Ex tb IIIC T80? Db ; Ex db IIB T4 Gb ; Ex db eb IIC T4 Gb

Copper-free cast aluminum construction - high strength, lighter in weight, and corrosion resistant. Fewer cover bolts - computer-aided design lessens the number of cover bolts by eliminating corner bolts.
