

# Extracting optical fibers from optical cables

1.1 This procedure describes how to access individual fibers in Corning Cable Systems optical fiber ribbons at both cable ends and mid-span points using the TKT-060 kit.

Spec Sheet Designed for use on LC and SC simplex and duplex connectors, this tool is perfect for inserting and extracting fiber optic connectors in high density patch panels.

TK-350 Fiber Optic Stripper & Kevlar Shears Kit - Featuring Molded Pouch to Securely Hold 3 Hole Fiber Stripper and Kevlar Cutting Shears - Ideal for Fiber Technicians

In this lesson, we will identify and examine cables, then prepare them for splicing or termination by stripping the cable to expose the coated fibers. Finally we will strip fibers, the final step before ...

This is the only tool on the market that can solve connectorization issues for Telephone and Cable Facility Providers as well as Enterprise Data Centers. It supports all Fiber optic modes, both ...

This fiber connector tool allows technicians to insert and remove small-form-factor (SFF) connectors without disturbing adjacent connections, making it a reliable solution for high-density deployments.

This fiber connector tool allows technicians to insert and remove small-form-factor ...

Specialized Products offers fiber optic tools which provide gripping without slipping to insert and extract fiber optic connectors. Check out the FOCUS tool for servicing high density patch panels.

FS offers a range of cable tools, such as cable stripper, cable slitter, cable cutter for fiber or copper cables

Designed for inserting and extracting fiber optic connectors in high-density patch panels. IET Series from Miller&#174; is an innovative, industry-leading tool for today's engineers. Find your closest global distributor.

High quality fiber strippers, fiber cleavers, cable slitters, mid-access tools, cable pulling tools and more from 3M, Corning, Ripley Tools, Greenlee, Paladin Tools and more.
