

Fiber Optic Cable Sheath Color Masterbatch

Our titanium dioxide-based white masterbatches provide high opacity, brightness and consistent processing performance. Designed for a wide range of polymers, they meet application needs in film, ...

ELTech masterbatches for optical fiber cable preserve high-performance signal transmission and feature excellent opacity at a low addition rate, high resistance to heat and color ...

According to the company, ELTech masterbatches for optical fiber cable preserve high-performance signal transmission and feature excellent opacity at a low addition rate, high resistance ...

Explore our high-performance cable masterbatch solutions designed for excellent dispersion, color consistency, and insulation. RoHS & REACH compliant.

Contraction qualities: Masterbatches with excellent contraction properties that ensure reliable data transmission. Download includes: Digital catalogue (PDF) with shades, certifications and technical ...

ELTech(TM) masterbatches for optical fiber cable preserve high-performance signal transmission and feature excellent opacity at a low addition rate, high resistance to heat and color ...

Masterbatch is a concentrated mixture of pigments and additives that are combined with plastic resins to impart color, enhance performance, and add functional properties.

For proper functionality and operability of E& E applications, Ampacet offers advanced additive masterbatches, including laser marking, metal deactivators, UV stabilisers, flame retardants ...

ELTech masterbatches for optical fiber cable preserve high-performance signal transmission and feature excellent opacity at a low addition ...

Low-shrinkage PBT Masterbatch for Engineering Plastics Tubes are colored to make the identification process easier in loose tube optical fiber cables. Low-shrinkage PBT masterbatch material as loose ...

ELTech masterbatches for optical fiber cable preserve high-performance signal transmission and feature excellent opacity at a low addition rate, high resistance to heat and color fading and include 16 colors ...

For proper functionality and operability of E& E applications, Ampacet offers advanced additive masterbatches, including laser marking, metal ...
