

Fiber Optic End Face Inspection Instrument Manufacturer

HTO-7000B fiber end face detector with 200X/400X magnification. Supports LC, SC, FC, MPO/MTP and SMA905 for precise connector inspection

From Lab & Production facilities to fiber testing in the field, when people need to inspect fiber, they look to VIAVI for the industry's best solutions to "Inspect Before You Connect".

Visual end face inspection occurs between each polishing step of a fiber optic cable manufacturing process. With a 450 nm LED to illuminate the fiber end face, the VSD500 system provides clear ...

The new D Scope EFI for MTP/MPO and multifibers field connectors is a cost effective microscope for inspecting fiber optic patchcords and cassettes. Easy to use, the D Scope EFI allows the operator to ...

AutoCheck uses customized criteria for fiber end-face inspection. The latest IEC standard is configured as the default criteria. The fiber end-face inspection is simplified to select criteria then click the ...

The optical connector end face inspection machine series is a fiber end face inspection device that can easily observe dirt on the end faces of optical connectors and transceivers.

AFL has a complete range of fast, easy-to-use tools that inspect and clean fiber endfaces. Using them consistently eliminates the #1 cause of network outages - dirty connectors.

Dimension Technology has launched a new FastCheck MT Fully Fiber Endface Inspector, which is designed for multi-core optical modules and high-density connectors.

High-resolution industrial interferometers to control quality of single fiber and multi-fiber connectors, ferrules and bare fiber, with the capability of measuring guide holes angles and parallelism for MPO ...

The FI-7000 FiberInspector Pro is a fiber optic inspection scope that allows you to inspect and certify fiber optic connector end-faces in 1 seconds so you can get the job done the first time.
