

Fiber Optic Sensor Converter

Description: Photon Control FGA-0172A Fiber Optic Temperature Sensor Converter 24 VDC Model Number: FGA-0172A 24 VDC FTC-DIN-SSMA-2512 SCL-0001 A-C Sale Details

Versitron's solutions provide long-distance data transmission, bandwidth efficiency, and interference-free performance over a single strand of fiber.

The RLH 4-20mA Fiber Optic Converter transmits 4 Analog signals over fiber cable and offers high performance with 30kHz bandwidth, 16 bit signal resolution, and less than 0.2% source signal variance.

Omron's high-performance fiber optic sensors and amplifiers come in a wide variety of configurations to meet your specialized requirements.

A Pair of Gigabit Multi-Mode LC Fiber Media Converter, with 2 Pcs SFP SX Modules, Fiber to Ethernet Converter, 1000Base-SX to 10/100/1000M RJ45, MMF, 850nm, up to 550m

MKS" fiber optic multichannel temperature converters are compatible with all fiber optic sensor probes and offer industry leading accuracy, repeatability, and reliability for temperature monitoring applications.

The RLH 4-20mA Fiber Optic Converter transmits 4 Analog signals over fiber cable and offers high performance with 30kHz bandwidth, 16 bit signal resolution, and ...

Motrona fiber optic converter pair LW215 (transmitter) and LW216 (receiver) converts incremental sensor pulse signals into optical signals and transmits them over long distances without interference. ...

Paired with a conversion module, it translates the optical data into a standard electrical signal. This makes the FGA-0174E essential for accurate thermal monitoring in challenging, critical environments ...

Smaller, more accurate, and with a broader measurement range (-200 to 450°C) than many other contact temperature sensing devices, the Luxtron M-1200 expands process development possibilities.

FOTEMP devices support customizable probes, sensors, and accessories, with calibration options from -200°C to +300°C. They integrate seamlessly with our monitoring software, offering comprehensive ...
