

Fiber optic PoE switch

OmniTron Power over Ethernet (PoE) switches enable distance extension over fiber optic cabling to network edge devices. They are available as unmanaged or managed switches.

Tripp Lite PoE+ Fiber Converters extend your copper Gigabit Ethernet network connection -- power (48 VDC) + data (1000 Mbps) -- up to 550 m over SC fiber optic cable with the addition of PoE.

Unlike traditional power setups, PoE switches provide centralized power management, ensuring that all connected devices receive stable power without fluctuations. This enhances reliability, especially in ...

Our Ethernet network switches with fiber ports comes in managed or unmanaged formats combined with both Industrial and Commercial grades. Utilize our PoE switches to power your Ethernet devices ...

Economic fiber optic networking device, supplies up to 10KM fiber optical network between point A and point B. Direct-burial type, IP67 waterproof rating and aluminum IK10 vandal proof rugged metal ...

Featuring auto-detecting SFP slots and 4 auto-MDI/MDI-X Gigabit RJ45 ports, this PoE 4-Port Switch enables seamless integration between fiber optic and copper networks.

Power and manage your network with this robust 24-port Gigabit PoE+ switch. Featuring a 300W total power budget (up to 30W/port), 4 Combo SFP uplink slots for fiber connectivity, and comprehensive ...

Fiber connections can be made through the optical fiber ports at speeds up to 1Gbps. It automatically switches optic network traffic to prevent link failure during a power loss. In addition, it allows the local ...

Discover fiber switches designed for reliable network connectivity. Browse 10G, 2.5G, and gigabit options to expand your bandwidth.

AXIS T8504-E is specifically designed for fiber-optic connections, typically used in city surveillance, airports, and other long-distance installations. Made for the surveillance industry, this plug-and-play ...

Fiber optic PoE switch
