

Fireproof Trapezoidal Cable Trays

To meet the needs of every location and situation, JetBlack's cable tray fire protection system is customised, removable, and can be easily installed and refitted.

Basor Electric, sensitive to the need to minimize the consequences of a fire, has subjected its cable trays to rigorous fire resistance tests to ensure the behavior of its products.

Our premium, intumescent latex/water-based caulk. This is an affordable firestop caulk that helps you stay on budget. Its unique intumescent property allows IC 15WB Caulk to effectively contain fire and ...

Ideal for retrofit environments, the EZ Path Cable Tray Retrofit Device ensures safe, efficient, and reliable fire protection without disrupting active cable systems.

We design custom cable enclosures that protect against fire & blasts. Cost-effective protection with quick installation and NEC & NFPA compliant solutions.

The Daken Fire-Resistant Cable Tray (DFCT) is a new-generation cable protection system that integrates fire resistance, structural load-bearing capacity, and ventilation into one single solution.

Each tray is coated with a specialized fire-resistant powder, ensuring protection and resilience, designed to withstand extreme conditions, the trays offer reliable performance.

These trays are treated with a fire-resistant coating that forms an insulating layer during a fire, significantly reducing the risk of fire spread. This makes them a top choice for high-risk ...

The FireMaster instrument control cable tray system is Factory Mutual Approved for 30 minute hydrocarbon fire protection of instrument control cable trays in accordance with ASTM E1725-95 ...

Build fire-rated enclosures around tray runs, transitions, and penetrations to block flame and smoke movement. Integrate coverings with existing fireproofing and firestopping systems for full compliance ...
