

Flexible drag-and-drop optical cable

Explore TE Connectivity's versatile optical flex circuitry and cable assemblies for high-density, customizable fiber optic solutions in advanced systems like C4ISR and C5ISR.

Fiber Optic Cable Fiber Optic Cable Choices Optical Cable Proven to Perform Get Fiber Optic Cable from Multilink When you shop with Multilink, you'll have the opportunity to choose fiber optic cable that meets your company's unique needs. We offer two main types of optic cable: flat drop cable and pushable fiber cable. Our Surelight® Flat Drop Cable is a Singlemode fiber drop cable that is suitable for indoor or outdoor use. It features a tight buffer constru... See more on gomultilink corning Evolv® ROC(TM) Drop with Pushlok® Technology | Corning As an industry leader in optical connectivity products, Corning designs and manufactures the ROC(TM) drop cable assembly with factory-terminated, ...

A single-fiber drop cable suitable for aerial, duct, or direct-buried outdoor installations. Available with Corning's innovative FastAccess® technology, which makes opening the cable easier and faster.

As an industry leader in optical connectivity products, Corning designs and manufactures the ROC(TM) drop cable assembly with factory-terminated, environmentally sealed and hardened connectors to ...

CommScope's fiber drop cable assembly solutions are designed to bring speed and flexibility to network deployments. Each factory-connectorized cable is designed to eliminate time-consuming field splices.

FieldShield FLEXdrop has more flexibility than standard FieldShield Optical Cable making it ideal for shorter drops where more handling and slack storage may be required.

Multilink's SpeedFlex Push Fiber is a strong but flexible fiber cable designed to be installed in rigid and flexible conduit, along with the ability to be stapled directly to the wall.

STL provides ultra high fiber count optic cable connectors & solutions to lower network cost, improve performance, and maximize flexibility for emerging data centres interconnect applications, faster ...

Support the deployment of fiber optic cables with our toneable drop cable assembly. Its versatility helps you adapt to different installation scenarios and network requirements.

CommScope designs and manufactures a comprehensive line of fiber optic drop cables

These cables enable installers, even those with minimal equipment and training, to connect to compatible ports for secure and reliable connections. Their precise tolerances and high-performance ...
