

Four-port industrial network switch

The FR-6S3204 Industrial Ethernet Switch 4 Port is a high-performance, cost-effective networking solution designed for industrial applications. This switch offers stable and reliable Ethernet ...

The EX42000 is an industrial unmanaged Ethernet switch that offers 10/100Mbps transfer speeds, auto MDI/MDIX, QoS, and Broadcast storm protection. It boasts full wire speed throughput, 4 kV surge ...

The N-Tron®; Unmanaged 4-port Industrial Ethernet Switch meets data gathering, control and Ethernet I/O needs cost-effectively. This plug-and-play four-port switch offers connectivity and comes in a ...

AXIS T8504-R Industrial PoE Switch is a 4-port managed industrial PoE Gigabit switch. In addition, the switch is equipped with two RJ45 and two SFP data ports ...

AXIS T8504-R Industrial PoE Switch is a 4-port managed industrial PoE Gigabit switch. In addition, the switch is equipped with two RJ45 and two SFP data ports that allows for extra devices to be connected.

4-port managed switch with dual SFP slots expands your Gigabit Ethernet network in harsh environments, including construction sites, warehouses and factories.

The industrial Fiber Switch can easily expand your network in a number of ways ...

Power terminal is removable with numbered pins for easy wiring. Power consumption is optimised based on the status of the link device. No software required. Ideal for factory floor, in vehicle and marine ...

Our Industrial Ethernet Switch portfolio comprises Managed and Unmanaged Switches with Gigabit, PoE, IEC 61850 certification, and for DIN rail mounting.

The Industrial 4-Port Gigabit Ethernet PoE++ Switch with 2 SFP Ports from Intellinet Network Solutions was designed to give you the network connections and device power you need in places that are ...

Designed with industrial automation and surveillance applications in mind, this industrial PoE Ethernet switch delivers both power and high-speed data through a single cable, simplifying deployment and ...

The industrial Fiber Switch can easily expand your network in a number of ways and be used in the field of security surveillance. Simply connect it to a WiFi device, such as a router or range extender, and ...
