

Free quote for 1G high-speed DAC cable

Direct Attach Copper (DAC) cables are high-speed, hot-pluggable factory terminated cables designed for data center and networking applications.

An SFP+ Direct Attach Copper (DAC) is a twinax copper cable with SFP+ connectors permanently attached at both ends. It is designed for short-range, high-speed connections between ...

Buy Cisco SFP-H1GB-CU1M/2M/3M/5M/7M Compatible 1G SFP DAC Cable for your switches. Guaranteed compatibility, Save 80%, Fast Shipping, 5-Year Warranty.

Search Newegg for 1gb dac cable. Get fast shipping and top-rated customer service.

LightSpeed(TM) DACs are a low-cost way to utilize the SFP ports on our fiber optic products and standard 1G network equipment. DACs (Direct Attach Cables) are a great solution for in-rack or other short ...

With the features of the low cost, low power consumption and low latency, it is an alternative to optical transceivers for short reach links in high-speed interconnect applications such as Data Center, HPC ...

LightSpeed(TM) DACs are a low-cost way to utilize the SFP ports on ...

Tell philisun engineers your requirements and receive a tailored cable quotation within one business day. We respond quickly and support custom lengths, wire gauge, labeling, and compliance options ...

High-speed Volex Direct Attach Copper (DAC) cables deliver reliable, energy-efficient data transfer for data centers. Customizable, tested and ready to deploy.

These cable assemblies support aggregate data rates of 25, 50, 100, 200, 400 and 800 Gbps. We offer custom cabling solutions and corresponding pluggable I/O cages and connectors.

FS DAC, AOC and AEC cables are most used in data centers and enterprise networks for switches, servers, and storage interconnects within a rack. With high ...
