

GPON SFP (Gigabit Passive Optical Network Small Form-Factor Pluggable) modules are compact, hot-pluggable transceivers used in optical communication networks. These modules ...

10Gtek® is a trusted supplier of optical transceivers, who researches, designs, manufactures and markets optical transceivers for various applications & data rate.

With its robust features, including support for multi-mode fiber and impressive transmission distances, this module is ideal for both enterprise and residential networking needs.

Supporting the OpenZR+ Multi-Source Agreement (MSA), the new 400G OpenZR+ QSFP-DD Optical Module from Molex provides a high level of performance and scalability for next-gen data centers ...

GPON technology enables high-speed data transfer over a single fiber strand using wavelength-division multiplexing (WDM). It supports downstream rates of up to 2.5 Gbps and ...

The SFP (Small Formfactor Pluggable) gigabit optical module is a critical component in optical communication systems, used to achieve optical-to-electrical conversion.

Learn what a gigabit SFP module is, how it works, main types, key specifications, and common use cases to choose the right 1G SFP for your network.

Gigalight's 1.25G SFP series transceiver modules are widely utilized in Gigabit Ethernet, concurrently compatible with 1G Fiber Channel and Synchronous ...

The Generic Compatible 2.488G-TX/1.244G-RX transceiver module is specifically designed for Gigabit Passive Optical Network (GPON) system. It integrates bidirectional data transmission over one ...

Gigalight's 1.25G SFP series transceiver modules are widely utilized in Gigabit Ethernet, concurrently compatible with 1G Fiber Channel and Synchronous Optical Network (SONET OC-24 / SDH STM-8), ...

Shop high-speed optical transceivers from Unitekfiber. We offer 100% compatible 40G, 100G, and 400G QSFP-DD modules for data centers. Expert technical support & wholesale pricing.

Gigabit Transmission Module
