

Guangtuo Vibration Optical Cable

Distributed fiber optic vibration/acoustic sensing technology utilizes the Rayleigh back-scattered light generated by periodically injecting laser pulses into fiber under test (FUT) to achieve ...

GT-Optical is a high-tech company specialized in research, development, production and sales of fiber communication products. Since the establishment, we have been praised by our customers and ...

Armored Vibration Sensing Optical Cable (GTFKY) is a sensing optical cable designed specifically for micro vibration optical fiber sensing systems.

Easy maintenance: With a single optical path design, the entire defense zone only requires a single vibration optical cable to be laid, making maintenance easy.

Our products are widely used in telecommunication industry, power transmission industry, mining cable industry, marine and submarine cable industry, railway industry, cable manufacturing and so on.

Shenzhen Guangtong Optical Co., Ltd (Hereinafter GT) was established in 2009, a high-tech enterprise which specialized in the research and manufacture of fiber optical telecommunication products.

To monitor for ground shifts and potential rupture points, an energy company installed optical fiber vibration sensors along a remote pipeline route. The system enabled real-time alerts on vibration ...

Our major products: communication fiber cables, power cables, FTTH optical cables; video optical transceiver, optical transceiver modules, Ethernet fiber optic transceivers, fiber media converter and ...

The system software automatically recognizes the length of the sensing optical cable with one click, making it easy to query the fiber breakage point. It is easy to install and maintain, and does not ...

Our products include pulse electronic fences, vibration optical fiber cables, biological sensing cables, laser intrusion detectors, tension fences, smoke detectors, gas detectors, and audible and visual ...
