

The built-in surge current mitigation technology mitigates the DUT risks from being damaged. The broad operating temperature range accommodates the enterprise, datacom and telecom applications. The ...

High optical transmitter output power greater than +1dBm for 400G transmission over ROADM line systems including those with colorless multiplexing architectures.

Coherent 400G Finisar Fiber Optic Transceiver Modules are designed for use in Gigabit Ethernet links on various applications, some with FEC. The ...

QSFP-DD optical module for reliable 400G fiber connections, perfect for distances beyond DAC reach, up to 100 meters! The module includes built-in digital ...

FS provides an expanding portfolio of 400G OSFP/QSFP112/QSFP-DD solutions featuring high-performance, high-bandwidth, and backward compatibility. The 400G transceiver modules are ideal ...

All Juniper qualified 400G optics are compliant with key industry standards and specifications for seamless interoperability in multivendor environments.

The transmitting end of an optical module converts electrical signals into optical signals, while the receiving end converts optical signals back into electrical signals. Optical modules are classified by ...

RTXM500-410 400G QSFP-DD FR4 transceiver modules are designed for use in 400 Gigabit Ethernet links on up to 2km of single mode fiber. They are compliant with the QSFP-DD MSA, IEEE 802.3cu ...

QSFPTEK offers 400G transceivers based on QSFP-DD form factor, enabling customers cost-effective, high-density, and low-power 400G Ethernet connectivity solutions.

**Guatemala RoHS QS FP28 Optical
Module 400G**
