Guyana Micro-module Data Center Manufacturer

Crimson Data Technologies is a Guyanese IT and data center company. Managed IT, cybersecurity, sovereign cloud, and the country's next data center facility -- locally owned and operated.

The new facility will bring advanced AI computing power to Guyana - creating jobs, new skills, and a foundation for local innovation.

Built near Guyana's Gas-to-Energy plant, the facility will use behind-the-meter natural gas to deliver sustainable, high-performance compute for global and regional AI workloads.
