

H3C IE4300 series industrial switches implement full Ethernet security features. By enforcing multiple sets of security mechanisms, they effectively limit malware spread and traffic flow attack.

H3C Industrial Ethernet 4300 switch series is H3C's latest industrial Ethernet switches designed for rugged environment and wide operating temperature.

The IE4300 industrial switch series are the latest Ethernet switches developed with industrial compliance and wide operating temperature in mind. All models are built with industrial grade components, with ...

H3C industrial switches can operate in -40°C - 75°C environments for a long time, and use industrial components to reach IP40 rating. At the same time, with shockproof, anti-electromagnetic ...

Switches Campus Network Switches Services integration and intelligent access H3C has been deeply engaged in the campus network for many years with various product levels. It can provide users with ...

The document is a 2023 product catalogue for H3C products. It provides an overview of H3C's digital solutions including smart connectivity, cloud computing, intelligent computing, intelligent terminals, ...

These switches integrate seamlessly with H3C's broader ecosystem of routers, security solutions, and cloud platforms. The H3C S5850 and S6800 series switches are advanced, high-density Ethernet ...

IE4500 industrial switch series implements full Ethernet security features. By enforcing multiple sets of security mechanisms, they effectively limit malware spread and traffic flow attack.

The IE4300 Series industrial-grade switches provide a full range of features security for Ethernet networks. By enforcing a range of security mechanisms, these switches can effectively limit the ...
