

High and Low Voltage Complete Equipment Test Bench

Our Calibration Test Benches are being used in Centralized Test Facilities & ISO/IEC 17025 Accredited Calibration Labs across a Wide Spectrum of Industries around the world, providing these customers ...

Discover comprehensive information on high voltage measurement, including non-standard complete set of equipment, impulse voltage generator applications, and Hydra.

Capable of performing electrical tests on tools and equipment up to 220 kV, featuring intelligent high- and low-voltage isolation control and automatic data acquisition. Fully digital voltage rise and fall ...

Specializing in partial discharge & RIV testing, ideal for accurate high-voltage diagnostics. Designed for EMC testing, offering bandwidth up to 500 MHz for accurate measurements.

High Voltage, Inc. designs and manufactures industry-leading high voltage test equipment for proof testing, diagnostic testing, high voltage breakdown testing, and preventative maintenance testing.

Find your voltage test bench easily amongst the 35 products from the leading brands (AVL LIST, MAGTROL, WUHV, ...) on DirectIndustry, the industry specialist for your professional purchases.

We have more than 10 years of experience in design specific apparatus for testing of automotive ECU and power controllers for Electric Vehicles (EV), e-Mobility, and power converters.

Rent test equipment from the leading supplier of test and measurement instruments, Advanced Test Equipment Corp. (ATEC).

The HV test benches enable everything from connection and short-circuit tests to component and insulation tests as well as dielectric strength tests in a compact system.

Electrical Test Bench & Motor Test Bench: All of your electrical testing equipment in one location. Customize our motor test benches to your specifications.
