

# High-density intelligent PDU explosion-proof type in stock

The next generation of rPDUs provides the industry's highest availability and most intelligent power monitoring and distribution -- complete with simplified energy management, a future-proof design, ...

Fit multiple PDUs in most standard rack sizes outfitted with AI servers and liquid cooling. Longer power cords, providing greater flexibility for placement and easier cable management.

With options designed for high-density environments, our PDUs are built to support the increasing power demands of cutting-edge technologies, including AI, machine learning, and big data analytics.

Select the Rack PDU that's right for you from 1,000+ unique Raritan models.

Built with high-temperature grade premium components, Enlogic by nVent G3 PDUs for HPE can operate in temperatures up to 60°C over extended periods of time and provide reliable operation ...

Discover smart PDUs with IP monitoring for data centers. Enable real-time control, remote management, and CE-certified reliable power distribution.

Providing reliable and cost effective power distribution, the Basic PDU offers IEC outlet grips, tool-less installation in server racks, color-coded outlet sections and a high operating temperature.

Our passion is to push back the boundaries of Rack PDU technology and deliver groundbreaking innovations in hardware and intelligence such as the High Density and Cx (two-in-one) outlets. We ...

Future-proof your rack power distribution with PX3 Intelligent PDUs, designed to endure multiple technology refresh cycles and provide reliable support for a decade or more.
