What You Will Need
Step 1. Power Off
Step 2. Cut The Conduit
Step 3. Smoothen It Out
Step 4. Install The Fittings
Step 5. Apply The Pvc Cement
Step 6. Connect The Pipe and The Box
Step 7. Fish The Wirings Through
Once that's all settled, connect your outdoor electrical conduit inside the fittings of the box. Remember to install one box at a time and never do multiple simultaneously, or you'll struggle trying to run all your conduits. The trick is to connect your PVCs into one box at a time while doing a conduit run. See more on [galvinpower](#)
