

Huawei Aggregation Switch 2 Optical

The CloudEngine S5755-H series high-quality optical port switches are a new-generation product launched by Huawei for the Wi-Fi 7 era. Built on Huawei's unified software platform and equipped ...

One passive aggregation module (HW-PEN-16LC-2KM or HW-PEN-16LC-10KM) can be installed in each slot. This passive aggregation module has no need for mains power supply or ELV rooms, ...

CloudEngine S5732-H is designed as an aggregation switch for medium- and large-sized campus networks, or as an access switch in small- and micro-sized data centers, supporting long-distance ...

The hybrid optical-electrical S5732-H48XUM2CC performs double duty at edge layers in small data centers: 10GE access, PoE++, and long-reach fiber--reducing cabling complexity and ...

Huawei CloudEngine S5732-H series switches provide all-GE optical downlink ports and fixed 40 GE uplink ports for a range of campus networks. Find out more.

This is where Huawei's all-optical Ethernet switches come in. An all-optical Ethernet switch provides both optical uplink and downlink ports, and uses optical fibers that feature high ...

CloudEngine S5732-H-V2 series switches are the next-generation enhanced all-optical Ethernet switches developed by Huawei.

The hybrid optical-electrical S5732-H48XUM2CC performs double duty at edge layers in small data centers: 10GE access, PoE++, and long-reach ...

CloudEngine S6780-H series switches are Huawei's next-generation 2 U flexible card switches. They provide high-density 100GE and 400GE optical ports, and feature high performance, high reliability, ...

With powerful aggregation and routing capabilities of CloudEngine S5735-S-V2 series all- optical switches make them suitable for use as core switches in a small-scale enterprise network.
