

# Huawei HG Optical Module Universal

MTRS-02X13-G is a high performance, cost effective module, which is supporting data rate up to 10.3125Gbps, and transmission distance up to 10km over single mode fiber.

Optical modules are important devices in fiber optic communication systems. Huawei Optical Module is manufactured by Huawei Technologies Co. and originated in Shenzhen.

In March 2019, HG GENUINE released the industry-leading data center 400g full series high-speed optical communication module and the industry's first 5g tunable color optical module.

In addition to the optical-to-electrical conversion function, the optical forwarding module integrates many signal processing functions, such as MUX/DEMUX, CDR, function control, performance data ...

To enhance support for intelligent computing networks, HiSilicon introduced some innovative optical module designs named "XingYun". The XingYun intelligent modules are ...

Huawei offers a comprehensive portfolio of pluggable StarryLink optical modules for data center networks, with various models providing flexible plug-and-play solutions tailored to diverse interface ...

Huawei provides a full series of pluggable optical modules. A wide variety of modules give you flexible plug-and-play options for all types of interfaces.

The company currently has 7 major product lines: data center product line, wireless/transmission product line, access product line, silicon optical product line, network terminal product line, home ...

Equipped with a full set of lens inspection and processing equipment. Achieving sub-second tolerance, precision beyond typical factory capabilities.

Are Optical Modules of Huawei Switches Interchangeable with Optical Modules of Other Manufacturers? No. Huawei switches must use Huawei-certified switch optical modules.
