

Arista introduces the 7368x4 Series 400G data center network switch. This 400 Gigabit data center switch offers 4X increase in bandwidth density compared to existing 100G 1U switches.

MikroTik CRS804-4DDQ-hRM - CRS804 DDQ A compact 1U 400G switch built for AI clusters, storage fabrics, and...

The S9300 series switch is a high-performance and high-density switch built on the cutting-edge 25.6T chip, with a single port supporting 400G transmission capability.

400G Switch market is split by Type and by Application. For the period 2020-2031, the growth among segments provides accurate calculations and forecasts for consumption value by Type, and by ...

A 400G switch offers high-speed data transfer, which is crucial for large data centers and enterprises with high bandwidth requirements. It supports advanced data traffic management and can ...

From latency benchmarks and RoCEv2 support to telemetry, automation, SONiC enhancements, and real-world deployment advice, consider this your go-to resource for selecting the ...

The CRS804 DDQ is a compact and reliable 400 Gigabit switch designed for modern AI workloads and next-generation network upgrades. With four 400G QSFP-DD ports and dual 1/10G Ethernet, it ...

Experience breakthrough switch performance that delivers high capacity, speed, and efficiency. A new modular chassis design supports high-port-density 400G expansion modules. Get a high ...

FS 400G data center switches offer high speeds and port densities to meet the network deployment requirements of various scenarios and the evolving requirements of next-generation data center ...
