

Industrial-grade durable fiber optic connectors

Designed for use in industrial automation environments or other harsh environment applications where a compact, robust, reliable ...

Our offering includes Ethernet and other fast communications protocols with the capacity to handle next-generation 40G and 100G when you are ready without the severe distance limitations of copper ...

We specialize in providing leading edge solutions and manufacturing technology products such as industrial networking cables, illumination fibers, medical assemblies and optical sensors.

FLX Series fiber connectors are rugged, waterproof, and offer quick, tool-free termination. Ideal for FTTH, data center, military, and industrial networks.

The durability and dependability translate well to any application where a standard grade optical connection would not survive. Each IP Series connector incorporates a bayonet system which ...

Whether it is a complex factory environment, harsh outdoor conditions, or high-precision medical equipment, CNLINKO industrial-grade waterproof fiber optic connectors can provide reliable fiber ...

As a leading supplier of advanced fiber optic components, Molex has an extensive product offering that includes a full range of optical solutions from connectors, adapters and cables to backplanes and ...

Foss offers ruggedized fiber optic connectors designed for reliability in extreme conditions. Ideal for industrial, military, offshore, and outdoor applications requiring dustproof, waterproof, and vibration ...

Lightera provides rugged, durable and reliable optical fiber systems for digital manufacturing, automation, energy monitoring and protection, smart cities and Industrial Ethernet.

Designed for use in industrial automation environments or other harsh environment applications where a compact, robust, reliable connection is needed. Combines a specially designed UV- and chemical ...

Because these connectors resist dirt, shaking, and wear, you spend less time and money fixing your fiber optic network. That kind of reliability can make a real difference--less downtime, ...
