

Intelligent Distribution Network Automation Control Box

Robust and resilient, our utility-grade intelligent network platform for distribution automation enhances reliability and efficiency by extending secure grid monitoring and control outside the substation fence.

Engineered to be an intelligent power distribution solution, the PE4104 IP Control Box ships with 4 power outlets in an IEC / NEMA socket configuration. It provides secure, centralized, intelligent, and ...

In factories and industrial environments, EL2P supports network reliability by delivering intelligent power to control systems, automation cabinets, and plant-wide infrastructure.

It has supplied more than 300,000 sets of various medium-voltage switches and ring main units and more than 200 sets of systems covering 60% cities in China to meet the application requirements ...

Siemens" Distribution Automation Box is an economical and versatile solution for monitoring and remote control of secondary distribution substations or connection points for renewable energies.

Functions: 1. remote / locally control 16 channel AC220V 1 phase power output by mobile phone and PC application. 2. every channel output by AC contactor and SSR. 3. use dry contactor ...

Upgrade outdated vertical operating pipes with our automated air brake switch, motor, and intelligent controls. Our distribution automation solutions enable consistent open-and-close operation for longer ...

Whether you need to control building fire pumps, HVAC systems, or industrial automation, our Intelligent Control Box delivers seamless performance and intelligent control.

The DTU Intelligent Electrical Control Cabinet is an automated control device designed for power distribution systems. It integrates data acquisition, remote monitoring, fault protection, and ...

Distribution boxes for room automation and DALI lighting control. Modular pluggable solutions for building automation and decentralized electrical installation.
