

Italian High-Temperature Temperature Measurement Optical Cable Factory

Recognized as a leading developer and manufacturer of fiber optic temperature sensing and partial discharge monitoring products, providing solutions for a multitude of industrial applications.

Company ITALICAB Srl is a supplier of high quality standard and special application cables, with headquarters in Brescia Italy. The technical expertise, commercial and logistics knowledge enables ...

ICC expands its range of instrumentation cables with high-performance custom solutions designed to withstand complex and high-temperature environments. Research & Development has ...

AP Sensing's fiber optic sensor cables enable real-time, precise monitoring of temperature, strain & acoustics in harsh environments with minimal maintenance.

For use in higher temperature ranges, all optical fibers based on Fused Silica can be optionally equipped with heat-resistant coating materials. This extends the potential field of application to a range from ...

High Temperature Cables: 105 - 150°C by Salcavi, your trusted Italian cables manufacturer and exporter.

Inside the asset (ex. transformer tank) What do you need to build up the right fiber optic system for continuous and accurate direct temperature monitoring?

Fiber optic temperature sensor, Distributed fiber optic temperature measurement system, Fiber optic temperature sensor for transformer, Advanced production technology is used to manufacture fiber ...

This paper will review the development of fiber-optic high-temperature sensors over the last 30 years, presenting their design and fabrication methods according to sensing type and typical ...
