

Offering ultra-high 25GbE speeds and a backbone switching capacity of 820Gbps, the QSW-M5216-1T can serve as the core switch uplinking to 25G Servers and NAS in server rooms or connecting to ...

FS 25Gb Switches offer high-speed, high-density, and cost-effective upgrades for flexible bandwidth in existing enterprise campus networks.

Out of the ~35 dell switches in our DC, we've had only two crashes over the last two years, and one was operator-caused. Since everything from core to ToR to servers is A/B redundant, all our software ...

Solved: I have a N9K-C93180YC-EX & i am trying to bring up a connection to a C9500-24Y4C switch. Tested connection with 10Gbps SFP's no problem, but when using a pair of SFP ...

Equipped with 48 x 25G SFP28 and 8 x 100G QSFP28 ports, this compact 1RU switch delivers up to 2.0 Tbps (4.0 Tbps full duplex) of non-blocking switching capacity, ideal for high-density aggregation or ...

Offering ultra-high 25GbE speeds and a backbone switching capacity of 820Gbps, the QSW-M5216-1T can serve as the core switch uplinking to 25G Servers and ...

In this article, we will highlight a range of Asterfusion SONiC 25G/10G switches that cater to the diverse budgetary and performance needs of various users, showcasing their unique ...

I have several ILAs around the Ethernet core and I can see tx and rx packets at the interfaces to the core. When I attempt to connect to the PC (running RHEL 8) the PC shows "cable not connected" ...

Need L3+ switching for ToR or Spine-Leaf solutions in cloud or high-end campus networks? QSFPTEK 25G data center switches support various advanced features such as MLAG and VxLAN, etc. It can ...

Dive into the evolution of next-generation 25G/100G data center networks and explore how single-chip box switches are poised to take over from traditional chassis switches.

This blog will outline the steps necessary to create a 10G/25G Ethernet Subsystem IP example design using the new Versal ACAPs Transceivers Wizard Subsystem.

Kazakhstan debugs core switch 25G
